Student Launch Initiative set for Saturday at Army test site

Students from four Huntsville-area high schools will launch rockets on Saturday that they designed and built as part of NASA's Student Launch Initiative. Sponsored by the Marshall Center, each student team, under guidance from Marshall engineers, will launch a reusable rocket -- aiming for an altitude of one mile -- carrying a science payload. The launches will be at the Army test range on Redstone Arsenal at 10 a.m. Transportation from the U.S. Space & Rocket Center begins at 9:15 a.m. Everyone attending must have their badges or a photo ID. For updated information on launch day, call 544-4500.

**Blood drive is
8 a.m.-1:30 p.m.
Friday, Bldg. 4316**

May is Asian Pacific American Heritage Month

IFMP maintenance scheduled

The NASA Integrated Financial Management Program Core Financial System will undergo maintenance from 7 p.m. Friday-8 a.m. Monday. All IFMP Core Financial production and test and development environments including Bankcard, NSMS and Business Warehouse systems, will be unavailable. The maintenance is in preparation for the Core Financial Wave-3 roll out. For more information, call 544-5700 and reference Activity Request No. 15042.
